45 SHORTHORN BULLS

35 FEMALES

32 POLLED SHORTHORN BULLS

FEATURES IN THIS SALE

All but 2 of the bulls consigned were calved in 1962 or prior. If you are in need of big, good headed, rugged bulls with plenty of bone, sound feet and legs and ready for service, here should be the end of your herd bull problem. Ideal for registered herds, for commercial herds and for cross-breeding herds.

Twelve of these consignments are of from 3 to 8 bulls each. Ideal for the man who needs several bulls bred alike to sire that uniform crop of calves with weight for age that he has been looking for.

The entire female consignment consists of well-grown, well-developed two-year old heifers and cows. They all either have long breeding dates or will have calves at side by sale day. A very useful set of females that could be the best investment for years to come.

TEMPEL RECOLLECTION - The bull that Mr. William Boysen and I purchased at the Denver show in 1962, where he won his class in strong competition. Since then he has developed into one of the better Shorthorn bulls of the day, both as an individual and as a sire. A look at his calves at either of our farms will testify to this.

All of the heifers we are consigning to this sale (except one) are in calf to Tempel Recollection and should have their calves at foot or be very close to calving by sale time. We think they are by far the best business set of females we have ever offered. They are not fat; having been reared on pasture all of their lives. They have been wintered out in the open on corn silage and alfalfa with just enough grain to keep them thrifty. They are clean and sound all around and should do well for their new owners. All were calfhood vaccinated for Bangs, Lepto, and Blackleg. I hesitate to sell heifers as good as many of these are, but our herd has outgrown our accommodations.

Signed, Bob Skinner
